Technical Skills

Languages: Java, C++, Python

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap

Tools: Git, GitHub, Microsoft Excel, PowerBI, VS Code, Vercel

Database: MySQL, PostgreSQL

Concepts: REST APIs, Responsive Design, State Management, UI/UX, Performance Optimization

Project

Simon Says Game *HTML, CSS, JavaScript*

- Developed an interactive memory-based game inspired by the classic Simon Says concept using HTML, CSS, and JavaScript.
- Implemented dynamic color sequence generation, user input validation, and score tracking functionality.
- Utilized DOM manipulation and event handling to create responsive gameplay and real-time feedback.
- Designed an intuitive and responsive user interface to enhance user experience across devices.

Fake News Detection *Python, Pandas, NumPy, Scikit-learn, NLTK, REST API*

- Developed a Fake News Detection system using Python and Machine Learning to classify news articles as Real or Fake.
- Collected and processed news data using REST APIs and performed data preprocessing with Pandas and NumPy.
- Applied NLP techniques using NLTK, including tokenization, stop-word removal, and text normalization.
- Extracted text features using TF-IDF Vectorizer and trained machine learning models with Scikit-learn.
- Integrated external APIs to fetch real-time news articles for prediction and automated analysis.
- Evaluated model performance using accuracy, precision, recall, and F1-score to improve prediction reliability.

Certifications

- Data Structures and Algorithms (DSA) with Java – **Apna College**
- Generative AI Fundamentals – **Google Cloud**
- Cybersecurity Job Simulation – **Forage**
- Basics of Python – **Infosys Springboard**

Leadership & Extracurricular Activities

- Volunteered in the college technical fest, assisting in event coordination and participant management.
- Avid reader of books and novels, fostering continuous learning and critical thinking.
- Interested in strategic and competitive games that promote decision-making and teamwork.
- Passionate about learning new technologies and continuously improving programming and problem-solving skills.
