Education

Bachelor of Technology CS(AI)
Dr. A.P.J Abdul Kalam Technical University
2023 – 2027

Intermediate
Divine Public School (CBSE)
2022 – 2023

Technical Skills

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Excel, Exploratory Data Analysis (EDA), Statistical Analysis
Visualization: Power BI, Matplotlib, Seaborn
Databases: MySQL
Tools: Git, GitHub, Microsoft Excel
Core Skills: Data Cleaning, Data Preprocessing, Data Visualization, Dashboard Development, Business Insights

Projects

Online Book Store SQL

- Designed and implemented a relational database for an online book store using SQL.
- Created and managed tables for books, authors, customers, orders, and payments using primary and foreign keys.
- Developed complex SQL queries using JOINs, subqueries, aggregate functions, GROUP BY, and ORDER BY to analyze sales and customer data.
- Analyzed sales data to identify top-selling books, customer purchasing patterns, and overall sales performance.

File Organizer using Python Python

- Developed a Python-based tool to automatically organize files into folders based on file types.
- Used Python's `os` and `shutil` libraries to manage directories and move files efficiently.
- Automated file organization to reduce manual effort and maintain a structured directory system.

Certifications

- Basics of Python – Infosys Springboard
- Microsoft Excel – Skill Course
- Microsoft Power BI (Self Learning)– Skill Course
- Tata Forage – GenAI-Powered Data Analytics Job Simulation
- Solved 100+ Questions on CodeChef

Leadership & Extracurricular Activities

- Volunteered in the college technical fest, assisting in event coordination and participant management.
- Avid reader of books and novels, fostering continuous learning and critical thinking.
- Interested in strategic and competitive games that promote decision-making and teamwork.
- Passionate about learning new technologies and continuously improving programming and problem-solving skills.
